INDEPENDENT AUDITOR'S REPORT

To the Members of Swal Corporation Limited

Report on the Ind AS Financial Statements

We have audited the accompanying Ind AS financial statements of Swal Corporation Limited ('the Company'), which comprise the balance sheet as at March 31, 2018, the statement of profit and loss (including the statement of Other Comprehensive Income), the Cash Flow Statement and the statement of Changes in Equity for the year then ended and a summary of the significant accounting policies and other explanatory information (herein after referred to as "Ind AS financial statements").

Management's Responsibility for the Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act read with relevant rules issued thereunder. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these Ind AS financial statements based on our audit. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India as specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the

auditor considers internal financial control relevant to the Company's preparation of the Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the Ind AS financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India of the state of affairs of the Company as at March 31, 2018, its profit including other comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of Section 143(11) of the Act, we give in the Annexure A, a statement on the matters specified in paragraphs 3 and 4 of the order.

2. As required by Section 143(3) of the Act, we report that:

(a) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit.

(b) in our opinion proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;

(c) the balance sheet, the statement of profit and loss, including Other Comprehensive Income, the cash flow statement and statement of changes in equity dealt with by this Report are in agreement with the books of account;

(d) in our opinion, the aforesaid Ind AS financial statements comply with the Accounting Standards specified under Section 133 of the Act read with relevant rules issued thereunder;

(e) on the basis of written representations received from the directors as on 31 March 2018 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2018 from being appointed as a director in terms of Section 164 (2) of the Act;

(f) with respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate report in "Annexure B" of this report.

(g) with respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

Annexure - A: Statement on matters specified in paragraph 3 and 4 of the Companies (Auditor's report) Order, 2016

(i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.

(b) All fixed assets have not been physically verified by the management during the year but there is a regular programme of verification which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. No material discrepancies were noticed on such verification.

(c) There are no immovable properties in the name of company as appears from the books of accounts.

(ii) The management has conducted physical verification of inventory at reasonable intervals during the year and no material discrepancies were noticed on such physical verification.

(iii) The Company has granted loans to one body corporate covered in the register maintained under section 189 of the Companies Act, 2013 ('the Act').

(a) In our opinion, the rate of interest and other terms and conditions on which the loans had been granted to the bodies corporate listed in the register maintained under Section 189 of the Act were not, prima facie, prejudicial to the interest of the Company

(b) In the case of the loans granted to the bodies corporate listed in the register maintained under section 189 of the Act, the borrowers have been regular in the payment of the principal and interest as stipulated.

(c) There are no overdue amounts in respect of the loan granted to a body corporate listed in the register maintained under section 189 of the Act.

(iv) In our opinion and according to the information and explanations given to us, the Company has complied with the provisions of Section 185 and 186 of the Act, with respect to the loans and investments made.

(v) According to the information and explanation given to us, the Company has not accepted any deposits from the public.

(vi) As explained to us, Sub Section (1) of Section 148 of the Companies Act, 2013, is not applicable to the company.

(vii) (a) The company has been generally regular in depositing its undisputed statutory dues including Provident Fund, Employees State Insurance, Income Tax, Goods and Service tax, Sales Tax, Service Tax, Duty of Customs, Duty of Excise, Value Added Tax, Cess and any other statutory dues as applicable with the appropriate authorities during the year. According

to the information and explanation given to us, no undisputed amounts payable in respect of Provident Fund, Employees State Insurance, Service Tax, Customs Duty, Excise Duty, Sales Tax, Cess and any other statutory dues were in arrears as at 31st March 2018 for a period of more than six months from the date they became payable.

(b) There are no disputed dues of sales tax or service tax or duty of customs or duty of excise or value added tax as on 31st March 2018 except following Disputed amount of income tax:

Assessment Year	Amount disputed (Rs. in Lacs)	Forum where dispute is pending	Status
2006-07	0.04	Assessing Officer	Demand raised by Assessing officer
2010-11	7.78	Assessing Officer	Rectification u/s 154 filed
2011-12	7.52	Assessing Officer	
2012-13	0.03	CIT-A	Appeal is filled before CIT-A
2014-15	15.56	Assessing Officer	AS per 26AS for said A.Y. as on 21-04-2017. Mistake seems to be rectified as Refund of Rs.1110 granted. However rectification Order not received.

(viii) In our opinion and according to explanation given to us, the company has not defaulted in the repayment of any loans or borrowings to Financial Institution.

(ix) According to the information and explanations given to us, the Company has not raised any money by Public issues/Debentures issue. However, the company has taken loan from financial institution during the year and the same is utilized for the purpose for which it was taken.

(x) According to the information and explanation given to us, no fraud on or by the company has been noticed or reported during the year.

(xi) According to the information and explanations give to us and based on our examination of the records of the Company, the Company has not paid/provided for managerial remuneration during the year.

(xii) As explained and in our opinion, the entity is not a Nidhi Company. Therefore, the provisions of clause (xii) of Para 4 of the Companies (Auditor's Report) Order are not applicable to the Company.

Annexure - B to the Auditors' Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Swal Corporation Limited ("the Company") as of 31 March 2018 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of

internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to explanations given to us the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in

SWAL CORPORATION LIMITED

Notes to the Financial Statements

INTRODUCTION:

The Company was incorporated on 12th October, 1979. The registered office of the company is 167, Dr. A. B. Road, Worli, Mumbai - 400018. The company is engaged in the business of Fertilizer and agrochemicals.

1 SIGNIFICANT ACCOUNTING POLICIES:

1.1 Basis of Preparation

These financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) under the historical cost convention on the accrual basis and the provisions of the companies Act'2013 ("Act") (to the extent notified).The Ind AS are prescribed under section 133 of the Act read with Rule 3 of companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards)Amendment Rules 2016

Effective 1st April 2016, the company has adopted all the IND AS standards and the adoption was carried out with Ind AS 101 First time adoption of Indian Accounting Standards with April 1 2015 as the transition date. The transition was carried out from Indian Accounting Principles generally accepted in India as prescribed under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 (IGAAP), which was the previous GAAP.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

1.2 Use of Estimates

The preparation of the financial statements in conformity with Ind AS requires management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. Application of accounting policies that require critical accounting estimates involving complex and subjective judgments.

1.3 Accounting Estimates

Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

1.4 Property, Plant and Equipment

Property, plant and equipment are stated at cost less accumulated depreciation and provision for impairment, if any. Cost comprises the purchase price and any attributable cost of bringing the assets to its working condition for its intended use.

Intangible assets are stated at acquisition cost less accumulated amortization, if any.

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement when the asset is derecognised.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

1.5 Depreciation on tangible Assets

Depreciation is provided for on straight line basis over the estimated useful life of the fixed asset as assessed by the management or as per schedule II to the Companies Act, 2013, whichever is lower. The same are as under:

Category of Assets	Useful life
Plant & Machinery	15 years
Furniture & Fixtures	10 Years
Office Equipments	5 Years
Computers	3 Years
Vehicles	8 Years

1.6 Amortisation of Intangible Assets

Intangible assets are amortised over their respective individual estimated useful lives on a straight line basis, commencing from the date the asset is available to the company for its use.

Category of Assets	Useful life
Business Rights-crop health	5 years

1.7 Impairment of Assets

The carrying amounts of assets are reviewed at each balance sheet date if there is any indication of impairment based on internal/external factors or an annual impairment testing for an asset is required. An impairment loss is recognized wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of the net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and risks specific to the asset. In determining net selling price, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used.

1.8 Investments

Presentation and Disclosure

Investments, which are readily realizable and intended for to be held not more than one year from the balance sheet date are classified as current investments. All other investments are classified as non-current investments.

Recognition and Measurement

Investments, which are readily realizable and intended to be held for not more than one year from the date on which such investments are made, are recognised as current investments. All other investments are recognised as long-term investments and carried at cost of acquisition. However, the carrying amount is reduced to recognise a decline, other than temporary, in the value of long-term investments by a charge to the statement of profit and loss. Current investments are stated at lower of cost or fair value determined on individual investment basis.

On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the statement of profit and loss.

1.9 Inventories

(i) Stocks of stores and spares, packing materials and raw materials are valued at lower of cost or net realizable value and for this purpose, cost is determined on moving weighted average basis. However, the aforesaid items are not valued below cost if the finished products in which they are to be incorporated are expected to be sold at or above cost.

(ii) Finished products are valued at lower of cost or net realizable value and for this purpose, cost is determined on standard cost basis which approximates the actual cost.

(iii) Traded goods are valued at lower of cost and net realizable value. Cost includes cost of purchase and other cost incurred in bringing the inventory to their present location and condition. Cost is determined on a weighted average basis.

1.10 Revenue Recognition

Revenue from sale of goods is recognized when the significant risks and rewards of ownership of the goods have passed to the buyer.

Export benefits under various scheme announced by the Central Government under Exim policies are accounted for on accrual basis to the extent considered receivable, depending on the certainty of receipt.

Interest is recognised on a time proportion basis taking into account the amount outstanding and the rate applicable.

Certain items of income such as overdue interest from customers etc. have been considered to the extent the amount is ascertainable and is expected to be recovered.

1.11 Sales

Sales are stated at net of sales returns. Sales are exclusive of sales tax / value added tax/Goods and Service Tax.

1.12 Retirement Benefits

Provident fund is a defined contribution scheme established under a state plan. The contribution towards employees Provident Fund are made on a monthly basis to the Government Provident Fund and charged to the profit and loss account.

Superannuation fund is a defined contribution scheme. Contributions towards Superannuation Fund are made on a monthly basis to an Insurance Company and charged to the profit and loss account.

The company has a defined benefit Gratuity plan. Every employee who has completed five years or more of service gets a gratuity on post employment at 15 days salary (last drawn salary) for each completed year of service as per the rules of the company. The aforesaid liability is provided for on the basis of an actuarial valuation on projected unit credit method made at the end of financial year. The scheme is funded with an insurance company in the form of a qualifying insurance policy

The company has other long term employee benefits in the nature of leave encashment. The liability in respect of leave encashment is provided for on the basis of actuarial valuation on projected unit credit method made at the end of financial year. The scheme is funded with an insurance company in the form of a qualifying insurance policy

Remeasurements, comprising of actuarial gains and losses, the effect of asset ceiling, excluding amounts included in the net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur, Remeasurements are not reclassified to profit or loss in subsequent periods.

1.13 Export Benefits

The benefit accrued under the Duty Entitlement Pass Book, Duty Drawback and other schemes as per the Import and Export Policy in respect of exports made under the said schemes is included as 'Export Incentives' under the head 'Other operating revenue'.

1.14 Cash and cash equivalents

Cash and cash equivalents for the purpose of cash flow statement comprise cash at bank and in hand and short-term investments with an original maturity of three months or less.

1.15 Taxation

Provision for current income tax is made on the taxable income using the applicable tax rates and tax laws. Deferred tax arising on account of timing differences and which are capable of reversal in one or more subsequent periods is recognized using the tax rates and tax laws that have been enacted or substantially enacted. Deferred tax assets are not recognized unless there is reasonable evidence with respect to the reversal of the same in future years. Deferred tax assets arising from the timing differences on account of carry forward of losses and unabsorbed depreciation are recognized to the extent there are virtual certainties that they would be realized in future. MAT credit is recognized as an asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period. The company reviews the same at each balance sheet date and writes down the carrying amount of Mat Credit Entitlement to the extent there is no longer convincing evidence to the effect that the Company will pay normal Income Tax during the specified period.

1.16 Borrowing Cost

Interest and other costs incurred for acquisition and construction of qualifying assets, up to the date of commissioning/ installation, are capitalized as part of cost of said asset. All other borrowing costs are expensed in the period they occur.

1.17 Foreign Exchange Transactions

Foreign Currency transactions are recorded on the basis of exchange rates prevailing on the date of their occurrence and gain or loss on transaction is recognized in profit and loss account.

Monetary items denominated in foreign currency remaining unsettled at the end of the year, are translated at the closing rates, prevailing on the Balance Sheet date. Exchange differences arising as a result of above are recognized as income or expense in profit and loss account.

1.18 Earnings per Share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

1.19 Provisions

A provision is recognized when an enterprise has a present obligation as a result of past event and it is probable that an out flow of resources embodying economic benefits will be required to settle the obligation and reliable estimate of the amount of the obligation can be made. Provisions are not discounted to its present value and are determined based on the best estimates required to settle the obligation at the Balance Sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect the current Management estimates.

1.20 Contingent Liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Group or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Group does not recognize a contingent liability but discloses its existence in the consolidated financial statements. Contingent liabilities are not recognized but are disclosed in Notes.

1.21 Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets**Initial recognition and measurement**

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- ▶ Debt instruments at amortised cost
- ▶ Debt instruments at fair value through other comprehensive income (FVTOCI)
- ▶ Debt instruments, derivatives and equity instruments at fair value through profit or loss (FVTPL)
- ▶ Equity instruments measured at fair value through other comprehensive income (FVTOCI)

Debt instruments at amortised cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in other income in the statement of profit or loss. The losses arising from impairment are recognised in the statement of profit or loss.

Debt instrument at FVTOCI

A 'debt instrument' is classified as at the FVTOCI if both of the following criteria are met:

- a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- b) The asset's contractual cash flows represent SPPI.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). However, the company recognizes interest income, impairment losses & reversals and foreign exchange gain or loss in the Profit and Loss. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to Profit and Loss. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

Debt instrument at FVTPL

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL.

In addition, the company may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch'). The company has designated certain debt instrument as at FVTPL.

Debt Instruments included within the FVTPL category are measured at fair value with all changes recognized in the statement of profit and loss.

Equity Investments

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the company may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to statement of profit and loss, even on sale of investment. However, the company may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the statement of profit and loss.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a company of similar financial assets) is primarily derecognised (i.e. removed from the Company's balance sheet) when:

- ▶ The rights to receive cash flows from the asset have expired, or
- ▶ The company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the company has transferred substantially all the risks and rewards of the asset, or (b) the company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the company continues to recognise the transferred asset to the extent of the Company's continuing involvement. In that case, the company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the company could be required to repay.

Impairment of financial assets

Ind AS 109 introduces a new model for recognition of impairment losses on the same – the 'Expected Credit Loss' (ECL) model. The Company has built a model for ECL and the two components on the basis of which it is calculated

1. Historical loss data
2. Qualitative parameters

Historical loss data

As a starting point, overdues greater than 270 days are assumed as doubtful debts. These doubtful debts are traced back (till 5 years) to the period(s) in which they became overdue or the year the entity was moved to SAP. % of these doubtful debts to the total overdues, at company level, of the respective period(s) is computed and average % is derived. Historical average % of losses is thus available. These %'s are then applied, at customer level, to the reporting period under consideration to arrive at the first component of the ECL provision.

Qualitative Parameters

Customer is assessed on three parameters and accordingly assigned scores and graded as Good, Average or Bad:

- i. Historical payment track record
- ii. Credit Insurance Limit
- iii. Customer's Country rating

A weighted average score is given to each customer based on the above parameters and based on the score, a grade is assigned. Each of the three grades carry a % that will be applied, at customer level, to the outstanding amount, to arrive at the second component.

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, or payables, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts.

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109.

Gains or losses on liabilities held for trading are recognised in the profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risk are recognized in OCI. These gains/ loss are not subsequently transferred to P&L. However, the company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit or loss. The company has not designated any financial liability as at fair value through profit and loss.

Loans and borrowings

This is the category most relevant to the company. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

Reclassification of financial assets

The company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The company's senior management determines change in the business model as a result of external or internal changes which are significant to the company's operations. Such changes are evident to external parties. A change in the business model occurs when the company either begins or ceases to perform an activity that is significant to its operations. If the company reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The company does not restate any previously recognised gains, losses (including impairment gains or losses) or interest.

The following table shows various reclassification and how they are accounted for:

Original classification	Revised	Accounting treatment
Amortised cost	FVTPL	Fair value is measured at reclassification date. Difference between previous amortized cost and fair value is recognised in P&L.
FVTPL	Amortised Cost	Fair value at reclassification date becomes its new gross carrying amount. EIR is calculated based on the new gross carrying amount.
Amortised cost	FVTOCI	Fair value is measured at reclassification date. Difference between previous amortised cost and fair value is recognised in OCI. No change in EIR due to reclassification.
FVTOCI	Amortised cost	Fair value at reclassification date becomes its new amortised cost carrying amount. However, cumulative gain or loss in OCI is adjusted against fair value. Consequently, the asset is measured as if it had always been measured at amortised cost.
FVTPL	FVTOCI	Fair value at reclassification date becomes its new carrying amount. No other adjustment is required.
FVTOCI	FVTPL	Assets continue to be measured at fair value. Cumulative gain or loss previously recognized in OCI is reclassified to P&L at the reclassification date.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the standalone balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

1.22 Leases

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

For arrangements entered into prior to 1 April 2015, the company has determined whether the arrangement contain lease on the basis of facts and circumstances existing on the date of transition.

Company as a lessee

A lease is classified at the inception date as a finance lease or an operating lease. A lease that transfers substantially all the risks and rewards incidental to ownership to the Company is classified as a finance lease.

Finance leases are capitalised at the commencement of the lease at the inception date fair value of the leased property or, if lower, at the present value of the minimum lease payments. Lease payments are apportioned between finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognised in finance costs in the statement of profit and loss, unless they are directly attributable to qualifying assets, in which case they are capitalized in accordance with the Company's general policy on the borrowing costs. Contingent rentals are recognised as expenses in the periods in which they are incurred.

A leased asset is depreciated over the useful life of the asset. However, if there is no reasonable certainty that the Company will obtain ownership by the end of the lease term, the asset is depreciated over the shorter of the estimated useful life of the asset and the lease term.

Operating lease payments are recognised as an expense in the statement of profit and loss on a straight-line basis over the lease term.

Company as a lessor

Leases in which the Company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating lease is recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

Leases are classified as finance leases when substantially all of the risks and rewards of ownership transfer from the Company to the lessee. Amounts due from lessees under finance leases are recorded as receivables at the Company's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the net investment outstanding in respect of the lease.

1.23 Fair Value Measurement

The Company measures financial instruments, such as, derivatives at fair value at each balance sheet date on a portfolio basis.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- ▶ In the principal market for the asset or liability, or
- ▶ In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- ▶ Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- ▶ Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- ▶ Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

1.24 Recent Accounting Pronouncements

Expected Credit Loss

Management measures Expected Credit Loss (ECL) in one part, by placing reliance on historical information, and on the other part, by allocating grades to every exposure and then assigning scores.

1) With respect to historical information, for every exposure:

· the existing long-standing overdue amounts (> 270 days) are plotted in the relevant overdue ageing bucket:

- o Not Due
- o 1 to 60 days overdue
- o 61 to 180 days overdue
- o 181 to 270 days overdue
- o Greater than 270 days overdue

in respective previous financial quarters

· After this, for 20 previous financial quarters, the percentage of such amounts to the total overdue in each of the ageing bucket is derived
· Then, the average (over 20 previous financial quarters) of such percentages for every ageing bucket is calculated.

Average percentages of every ageing bucket so derived are then applied to the respective overdue ageing buckets as of the reporting date to arrive at the ECL based on historical

2) With respect to the other part of ECL, every exposure is assessed on three parameters:

- Historical payment track record
- Credit Insurance Limit
- Country Rating

and accordingly graded. These grades are assigned scores. Depending on the score, a pre-set percentage is determined and applied to the exposure to arrive at the ECL based on scores

Thus, for every exposure, ECL is determined by taking sum of the amounts arrived based on historical information and grading.

Net Other Comprehensive Income (Gain)/Loss	(10.24)	(3.98)

SWAL CORPORATION LIMITED**Notes to Accounts for the year ended 31st March, 2018****2.24 Earning per Share**

Basic EPS amounts are calculated by dividing the profit for the year attributable to equity holders by the weighted average number of Equity shares outstanding during the year.

Diluted EPS amounts are calculated by dividing the profit attributable to equity holders (after adjusting for interest on the convertible preference shares) by the weighted average number of Equity shares outstanding during the year plus the weighted average number of Equity shares that would be issued on conversion of all the dilutive potential Equity shares into Equity shares.

The following reflects the income and share data used in the basic and diluted EPS computations:

Rs. in Lac except per share data

Particulars	Rs. in Lac except per share data		
	Year Ended March 31st, 2018	Year Ended March 31st, 2017	
Basic / Diluted Earning Per Share:			
Profit after taxation as per Profit and Loss Account	(A)	2,934.45	492.25
Weighted average number of Equity Shares Outstanding	(B)	1,000,007	1,000,007
Basic/Diluted Earning Per Share (in Rupees)	(A)/(B)	293.44	49.22
Nominal value of equity share (in Rupees)		10.00	10.00

2.30 Financial risk management objectives and policies

The Company's principal financial liabilities, other than derivatives, comprise loans and borrowings, trade and other payables, and financial guarantee contracts. The main purpose of these financial liabilities is to finance the Company's operations and to provide guarantees to support its operations. The Company's principal financial assets include loans, trade and other receivables, and cash and cash equivalents that derive directly from its operations.

The Company is exposed to market risk, credit risk and liquidity risk. The Company's senior management oversees the management of these risks. All derivative activities for risk management purposes are carried out by specialist teams that have the appropriate skills, experience and supervision. It is the Company's policy that no trading in derivatives for speculative purposes may be undertaken. The Board of Directors reviews and agrees policies for managing each of these risks, which are summarised below

Market Risk

Market risk is the risk that the fair value of future cash flows of a financial asset will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk and commodity risk. Financial Assets affected by market risk include loans and borrowings, deposits and derivative financial instruments.

Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's long-term debt obligations with floating interest rates.

Foreign Currency Risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's operating activities (when revenue or expense is denominated in a foreign currency). The Company manages its foreign currency risk by hedging transactions that are expected to realise in future.

The Company manages its foreign currency risk by hedging transactions that are expected to occur within a maximum 12-month period for hedges of actual sales and purchases and 12-month period for foreign currency loans.

When a derivative is entered into for the purpose of being a hedge, the Company negotiates the terms of those derivatives to match the terms of the hedged exposure. For hedges of forecast transactions the derivatives cover the period of exposure from the point the cash flows of the transactions are forecasted up to the point of settlement of the resulting receivable or payable that is denominated in the foreign currency.

The Company hedges its exposure to fluctuations on the foreign currency loan by using foreign currency swaps and forwards.

Equity Price Risk

The Company's non-listed equity securities are susceptible to market price risk arising from uncertainties about future values of the investment securities. The investment in unlisted equity securities is not material.

Credit Risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks and financial institutions, foreign exchange transactions and other financial instruments.

Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The Company manages liquidity risk by maintaining adequate reserves, by continuously monitoring forecast and actual cash flows and matching the maturity profiles of the financial assets and liabilities.

2.31 The Company operates only in one segment i.e. Agro activity, hence the requirement of segment reporting pursuant to Indian Accounting Standard 108 are not applicable.

2.32 In the opinion of the board, the current assets, loans and advances (net of provisions) are approximately of the value stated, if realized in the ordinary course of business. The provision for depreciation and for all known liabilities is adequate and not in excess of amounts reasonably necessary.

2.33 Details of Loans given to other Body Corporates u/s 186 of the Companies' Act 2013
(Rs. In Lac)

Name of the Company	Amount of loan given	Outstanding as on March 18
Harsora Hotels Pvt. Ltd.	-	141
Tatva Global Environment Limited	7,660	587
Premier Limited	-	500
Total	7,660	1,228

2.34 Balances of certain sundry debtors, creditors, deposit and other debit and credit balances are subject to confirmation and reconciliation. Adjustments, if any, in this regard would be carried out as and when ascertained, which in view of the management would not be material.

2.35 Capital commitment:- Rs. 5.15 Crores (PY -8.79 crores)

2.36 Employee Count =185 (PY- 183)

2.37 Previous year figures have been regrouped or re-arranged wherever necessary.
